

PARENTHOOD HAPPINESS FOR THOSE WHO LOST HOPE

ABOUT US

The company was founded by **Professor Alexander Mikhailovich Feskov**, M.D., a member of the European Society of Human Reproduction and Embryology (ESHRE), the American Society of Reproductive Medicine ASRM, a member of the board of the Ukrainian Association of Reproductive Medicine UARM. Since 1995 he has been working effectively in the field of reproductive medicine in Ukraine.

Feskov human reproduction group performs a complex of medical, legal, information, trouble-shooter services in the field of reproductive medicine, reproductive rights, human genetics.

OUR TECHNOLOGIES

Our technologies are the most advanced, which allows us to solve male and female reproductive problems of

any complexity. In this case, the main mandatory condition for their application is reliability and safety. We use surrogate motherhood, egg donation, pre-implantation genetic diagnosis, stem cell treatment, mitochondrial / pronuclear transfer and other modern reproductive techniques that allow creating guarantee conditions for child`s birth which is possible with any types of infertility, as well as to achieve the birth of a perfectly healthy baby.

WE PROVIDE

We provide our customers with comfort and reliability. We work with everyone individually and take everyone`s problems to heart. You trust us the solution of your problems, you need only to follow our instructions and as a result, you embody the dream of a child in life.

OUR TEAM

Our team are top-class specialists who successfully combine practical work with the scientific one. These are candidates and doctors of medical sciences who have long been engaged in reproductive health issues.

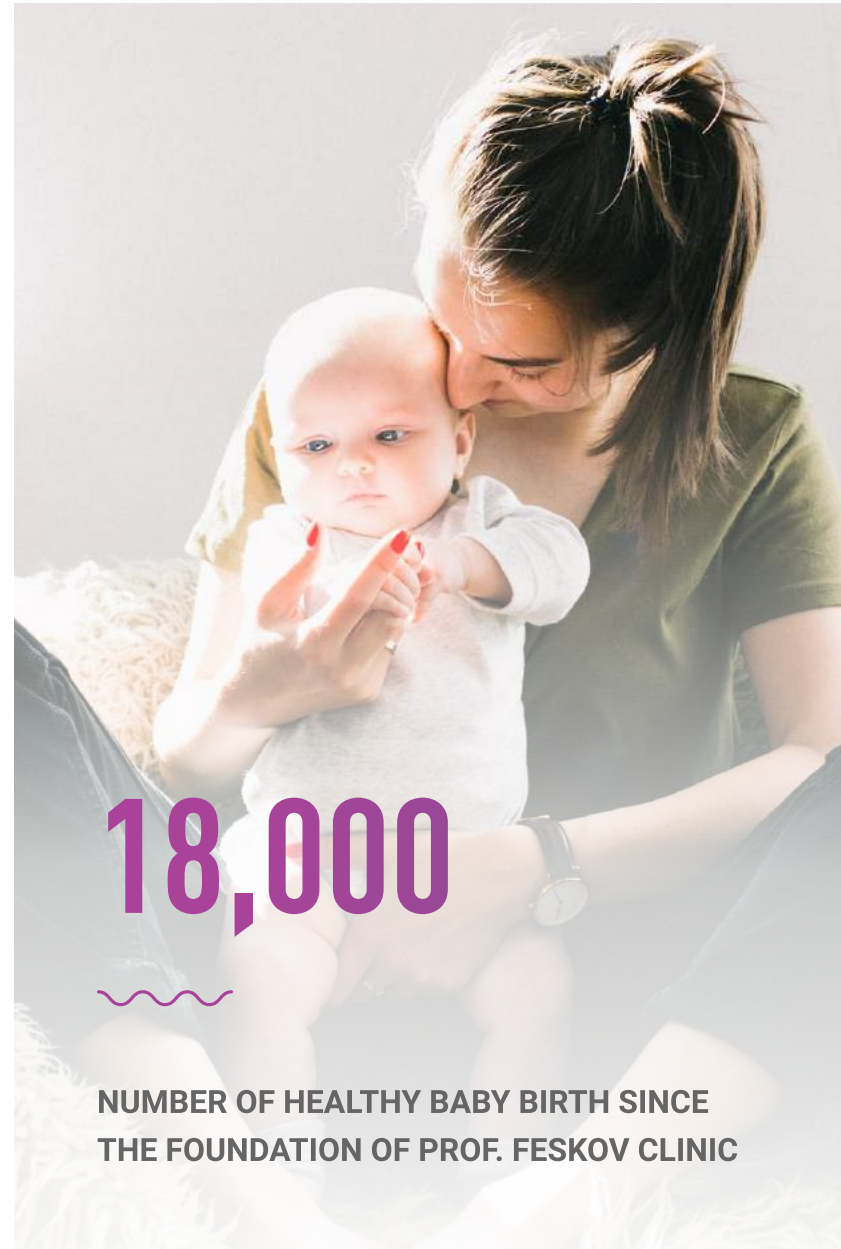

We keep our finger on the pulse of the world`s medical discoveries, follow the latest research in reproductive endocrinology, we are actively involved in the scientific process and timely introduce successful medical developments.

OUR SERVICES

SURROGACY SERVICES

The best service in the world in usability, quality and price. All you need is a good mood and high high-quality spermogram, and our technologies will do the rest.

We offer guaranteed programs that include an unlimited amount of medical services up to pregnancy and childbirth. The program requires your sperm and egg from your wife or egg donor, from which we will create a healthy embryo. Then it will be transferred to the womb of a surrogate mother, who will give birth to your child.

Programs include guest services during your stay in Ukraine or in a country where a surrogate mother will give birth, as well as full legal support before leaving to your place of residence. Special advantages of the service - fixed prices, unique services, all inclusive.

EGG DONATION SERVICES

An extensive donor base, which offers a large selection for any ethnic group, any religion and worldview. You can easily find an egg donor with the appearance you need.

Following our instructions, you'll have a guaranteed pregnancy. Once you have chosen the egg donor, our doctors fertilize the obtained eggs with your spermatozoon and create the embryo. This embryo is then transferred into the uterus.

IVF GUARANTEED SERVICES

It is known that 20% of the success of the occurrence and course of pregnancy and childbirth depends on the woman, while 80% depends on the embryo, its quality

and genetics. We are ready to provide you with 100% if you use a guaranteed IVF program! You can choose comprehensive programs of Economy, Comfort, VIP deLuxe class.

HUMAN GENOMICS SERVICES

FHRG provides a unique service to date to research your genome for all clinically significant genetic mutations and diseases known to date to medical science, with the subsequent determination of a completely healthy Perfect Human embryo as a result of an IVF program.

As a result of the application of this package of services, the birth of a child with a normal set of chromosomes and a known sex is guaranteed, you select the sex of your child at your discretion.

But most importantly, your baby will have a complete absence of clinically significant mutations, which determines its future health, as well as the health of the future generation it will create when it grows up.

THE PACKAGE WORKS FOR ABSOLUTELY ALL THE DISEASES DESCRIBED TODAY.

ADVANTAGES

1

We specialize in human genomics and PGD diagnosis, which allows us to choose a healthy embryo, prevent the transmission of hereditary diseases and select the sex of the future child at your request.

2

We have our own base of mothers and egg donors of the European, Asian, African phenotype that allows you to choose your ideal donor.

3

We have been in the field of reproductive medicine since 1995, since that time we have completed hundreds of successful IVF programs, which allows us to legally guarantee 100% of the birth of a healthy child.

4

We guarantee you a professional and quality service, we are ready to help you 24 hours a day, respond in a timely manner and minimize all possible risks. We will be with you to achieve your next desired result.

5

The system of our services is built on complete confidentiality. We have developed and use a reliable personal information protection system for each patient

6

We speak your language! Our professionals speak Italian, Spanish, English, Russian, French, German, Romanian, Hungarian, Chinese, Japanese, Polish, and Ukrainian, so we will always understand you.

ALL CLIENTS COMING TO US ENJOY A WIDE RANGE OF BENEFITS:

GUARANTEED IVF TREATMENT WITH OWN EGGS!

NO HIDDEN EXTRA COSTS

BABY BIRTH PROCESS IN A HIGH-LEVEL PRIVATE MATERNITY HOSPITAL

WE ORGANIZE A GUARANTEED REMOTE PROGRAM WITH THE LABOR OF A SURROGATE MOTHER IN ANY PART OF THE WORLD WITH BABY BIRTH IN THE USA, CZECH REPUBLIC, CANADA, UKRAINE!

For your convenience, we have developed a set of packages with services to guarantee you the result of our cooperation and your satisfaction with our joint work on your parenthood.

Guaranteed packages include all the necessary services in order to easily give birth to a child, you just need to come to Ukraine - **everything else is our task.**

WORLDWIDE COVERAGE

OUR LOCATIONS

To date, the company includes three clinics: in Kharkov, Kiev and Prague. The main office is in the city of Kharkov. Here there are 2 IVF laboratories, an operating laboratory, a genetic laboratory. In the clinics located in Prague and Kiev, we carry out medical programs, conduct initial consultations and examinations of patients.

WORLD COVERAGE

Our partners are in the USA, Spain, Czech Republic, Germany, France, Italy and other countries (about the exact geolocation of partners you can ask our managers). Cooperation allows us to achieve better results and maximize the opportunities offered by the use of surrogate motherhood and other reproductive technologies so that families with reproductive

problems can have children. In the modern world, logistics plays an important role and influences the success of an event.

We took it into service, we work clearly and smoothly planning each step in advance and adjust to your wishes.

Working with partners, we successfully implemented remote guarantee programs. You do not need to come to Ukraine to become our customers. Performing a reproductive program and labor can take place in your country or another country that you choose.

OUR OFFICES ON THE MAP

GUEST SERVICES

For parents-to-be seeking peace of mind, Ukraine is a desirable surrogacy destination. Legalities in Ukraine recognize the parents-to-be as the only legal parents of the babies born via surrogacy, with their names written on the birth certificate.

This keeps the baby registration procedures simple with respective embassies and allows the parents to leave the country within a shorter period.

Ukraine is also more affordable and cost-effective as compared to other legal surrogacy destinations. We maintain remarkably high medical standards, which have resulted in exceptional success rates. By keeping failure at a minimum, we can keep our costs at a minimum as well.

WE PROVIDE FREE OF CHARGE

TRANSFER (MEETING AT THE AIRPORT AND AT THE RAILWAY STATION IN KHARKIV)

TRANSFER (MEETING AND SEEING OFF IN ALL AIRPORTS AND RAILWAY STATIONS IN UKRAINE)

HOTEL, BOOKING SERVICES AND ORGANIZING RESIDENCE (WITH AIR CONDITIONER, DESK, WARDROBE, WI-FI)

PERSONAL DRIVER

TOP-QUALITY DINING EXPERIENCE

AN INTERPRETER

**VISITING KIEV OR
KHARKIV, UKRAINE.**

**YOU WILL VISIT
KIEV/KHARKIV TWO OR
THREE TIMES BEFORE,
DURING, AND AFTER
COMPLETION OF
YOUR PROGRAM.**

VISIT 1

Your first visit to Ukraine will be when you start your program.

This visit includes meeting the doctor who will be leading your program, any necessary tests (if not completed in your home country), sperm samples, meeting your personal coordinator, and signing contracts.

VISIT 2

If no egg donor is needed, the mother-to-be should go to Kiev/Kharkiv to donate her eggs. The doctor will give you all necessary prescriptions during your first visit, and you can buy all needed medications in Kiev/Kharkiv to carry out stimulation at home, if you prefer. You will then need to visit Ukraine two to three days prior to puncture.

VISIT 3

YOUR THIRD VISIT TO KIEV/KHARKIV IS WHEN YOU GET TO TAKE YOUR BABY HOME!

DURING YOUR STAY, YOU WILL OBTAIN A CIVIL REGISTRATION CERTIFICATE FOR YOUR NEWBORN BABY.
